

AR ANOK REMEDIES
India Private Limited

A Passion for Better Medicine

We empower individuals with personal health by accelerating access to affordable and effective medicine.

Introducing Anok Remedies

Anok Remedies, takes its pride of being the specialty pharmaceutical company, and profoundly defines itself with a tagline “**A passion for better medicine**”. The company is instrumental and equally engaged in the marketing of the quality finished drug dosages which is suitable for chronic therapy.

The Early Inception

The early inception of the company was initiated with a simple philosophy and thought of bestowing a healthy life to the individuals by ensuring delivery of safe, effective and high-quality medicines to patients, which are affordable. We do believe that one should have access to quality medicine which would help in disease management, fight infection, and enhance the overall health of the individual.

It is often observed and equally debated, that most pharma companies that exist today are vehemently striving hard to offer quality medicines in the market, yet frequently end up in poor accessibility to the patients. The intention and intent to initiate the **Anok Remedies as a limited company** is to find and fill these gaps to the best of our ability and ensure that the quality medicines are reached at the appropriate time to the people and with due diligence towards **Integrity and Ethical Business Practices**.

The Infrastructure

We have assessed the customer's needs and moving further, we have the requisite infrastructure in place at Anok Remedies, which helps to deliver the cutting edge technologies which also represents the best quality standards and best practices.

We always have a personalized and professional touch by attending to every detail of the medicine doses and ardently following the medication management protocols to the best of our ability.

Dedication. Compassion. Trust.

The Vision

We would like to be recognised as a leading provider of medicines especially in the speciality healthcare with patient-centric approach and profound strategies built on values and ethics.

The Mission

As a company we want to evolve as a most admired pharma company and trusted healthcare partner with affordability, quality and accessibility.

The Patient-Centric Approach

The company always brings into the practice of **Patient-Centric Approach** and which is absolutely maintained at all times, furthermore emphasizing the need for implementing the strategies with a complete governance over the Quality Policy and its doctrines. The team has always been adhering to the quality standards and goes about ensuring the product safety and efficacy which is as per the **Standard Operational Procedure (SOP)**. The patient-centric approach is absolutely maintained at all times and works with a complete teamwork towards the fulfilment of strategies.

The Accountability

Our accountability as a company is to build a complete thoroughness towards setting up clear objectives, further concentrating our efforts, attention and energy to deliver what we say. We pay the paramount importance in the timely execution at the same time maintaining efficiency & the discipline becomes our central theme to us and to our stakeholders.

More than just low prices we are Passionate About Medicine and Compassionate About People.

About Manufacturers

As an authentic health care company, we have been having our own sanctity towards manufacturing of medicines as the quality of medicines has become the prime importance till date. For this reason, we have chosen some of the best pharmaceutical manufacturers for the production of our medicines. It would be needless, when mentioning that these manufacturing companies are one of the most sought after and where the quality is of utmost priority.

Theon Pharmaceuticals: Theon Pharmaceuticals is accredited with **cGMP and WHO GMP certifications** showing its quality produce and is an **ISO 9001: 2015** certified company. The pharmaceutical giant implements the state-of-the-art technology, and puts in place the most stringent methods during the operation. Theon Pharmaceuticals enjoys the legacy of having some of their best clientele such as **Abbott India, Novartis, MSD, Cipla, Dr. Reddy's, Glenmark, Intas, Torrent Pharma, Zydus-Cadila**

Swiss Garnier Life Sciences: Swiss Garnier Life Sciences is one of the global pharmaceutical companies which specializes in innovative pharmaceutical formulations, the company is one among the very few Indian companies which has got well-equipped facilities to produce some of the finest dosage forms. Swiss Garnier Life Sciences is accredited with **ISO 9001 - 2008 CERTIFICATION, WHO GMP, FDA PHILIPPINE and PEPSICO AUSTRALIA**. The prestigious clientele would include **Abbott, MSD (Merk), Cipla, Sun Pharma, Dr. Reddy's, Torrent Pharma, USV**.

Cu-V-Kar Genetic Medicines: Cu-V-Kar Genetic Medicines is the sister concern of MM Pharma which deals exclusively with finished dosage formulation and contract manufacturing. The company is **WHO-GMP, ISO 2021** certified and has had its pharmaceutical base for the last **45 years**, manufacturing the products for **450 companies**. The manufacturer manufactures products for most of the multinational companies in India and globally exports to 7 countries.
